Dear Commissioners:

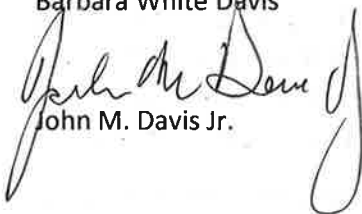

Please rectify the changes Mr. DeJoy has made to make the post office less responsive and effective. We use the post office services for many things. We have experienced delays that have had a negative impact on bill paying and receiving medication, as well as some first-class mailings. The post office has always been one of the most respected and useful governmental services, and one of the most revered and trusted for many reasons.

It was infuriating to hear that so many sorting machines were reportedly scrapped even after the deed was reported early on such that something could have been done to justify it or stop it. That malfeasance, the deliberate undermining of the post office and the dedicated workers, and the appearance that Mr. DeJoy desires to destroy the post offices in order to privatize it, should be reason enough to put his job in jeopardy.

Sincerely,

Barbara White Davis

John M. Davis Jr.
